Inter-Rater comments	Tag	Rationale from framework
I actually think this is an example of abstraction.	Creating computational abstractions	The group is identifying, creating, and using a computational abstraction as they work toward a goal.

Inter-Rater comments	Tag	Rationale from framework
I think I am struggling with what is meant by levels here. I see them trying to write a constant, but I don't see the larger connections.	Thinking in levels	The group has identified the different levels in a system.

Inter-Rater comments	Tag	Rationale from framework
What is abstraction? I'm not seeing it, but maybe I'm using some colloquial lens that is inappropriate.	Creating computational abstractions	The group has identified a computational abstraction as they advanced toward some goal.
